

SNEHAL G H

Aspiring Data Analyst | SQL • Python • Power BI • Tableau • Excel

📍 Bangalore, India | 📞 +91 9663705967 | ✉ ghsnehal123@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Certified Data Analyst with 4.2+ years of experience in operations data analysis, KPI tracking, and reporting, with hands-on experience in SQL, Python, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis (EDA), and dashboard development to deliver actionable insights for business decision-making.

TECHNICAL SKILLS

Languages: SQL (Joins, Subqueries, Window Functions, CTEs), Python (Pandas, NumPy, EDA, Data Cleaning)

Visualisation: Power BI (DAX, Dashboards, Interactive Reports), Tableau, Excel (Pivot Tables, Charts), Matplotlib

Tools: MySQL, SQL Server Management Studio (SSMS), GitHub, Gen AI Tools

Analysis: ETL (Extract, Transform, Load), Data Cleaning, EDA, KPI Analysis, Data Transformation, MIS Reporting

Soft Skills: Attention to Detail, Analytical Mindset, Team Collaboration, Stakeholder Communication, Time Management

DATA ANALYST PROJECTS (SELF-DRIVEN)

Retail Sales Performance Analysis | SQL • Python • Power BI • ETL | Nov 2025 – Jan 2026

- Designed and implemented an ETL pipeline to extract raw sales data, transform it using Python (Pandas) and SQL, and load it into a structured format ready for analysis.
- Analysed 10,000+ sales records to evaluate revenue, cost, and profitability across regions and product categories using advanced SQL (JOINS, Window Functions, GROUP BY).
- Performed EDA in Python (Pandas) to identify trends, seasonality, and sales patterns; developed interactive Power BI dashboards to visualise insights for business decision-making.

Operations Performance Analysis | SQL • Python • Power BI • ETL | Jan 2026 – Feb 2026

- Built an ETL workflow in Python (Pandas) to extract, clean, and transform 8,469 service ticket records — handling missing values, duplicates, and data inconsistencies.
- Conducted EDA to uncover patterns in resolution time, SLA breaches, and customer satisfaction scores; built Power BI dashboards to track KPIs and support stakeholder decisions.

Credit Card Transaction Analysis | SQL • Power BI • Gen AI Tools | Mar 2026 – Apr 2026

- Analysed 26,000+ transaction records using advanced SQL to identify customer spending behaviour and financial trends; built Power BI dashboards with DAX measures (MoM growth, cumulative analysis).

Coffee Sales Analysis | Excel

- Analysed 149,000+ records using Pivot Tables and Charts to identify top-performing products and sales trends; built dynamic Excel dashboards for quick business insights.

WORK EXPERIENCE

Note: The roles below are in operations; data reporting and analysis were a significant part of each role.

Team Lead – Operations & Data Reporting | iSON Xperiences Pvt. Ltd | Jan 2024 – Feb 2025 | Bangalore

- Produced 5 daily and 25 weekly MIS reports using Excel, enabling real-time data visibility for 4 cross-functional departments and supporting senior management decision-making.
- Performed root-cause data analysis to identify performance gaps; improvements drove SLA compliance from 80% to 90% within 6 months and quality scores from 90% to 95%.
- Presented data-driven trend analyses and insights to stakeholders across departments, ensuring accuracy and consistency in cross-functional reporting.
- Managed and monitored KPIs (productivity, SLA, quality, resolution metrics) for a team of 20 agents; recognised as Best Performer of the Month – October 2024.

Team Lead – Operations | Altruist Technology Pvt. Ltd | Aug 2020 – Aug 2023 | Bangalore

- Built and maintained 10+ Excel-based dashboards for Weekly and Monthly Business Reviews across 3 departments, reducing ad-hoc reporting requests by ~35%.
- Analysed daily operational data to track KPIs (productivity, quality scores, TAT: 24 hrs, AHT: 7 sec) — consistently meeting all targets and maintaining 95%+ SLA compliance for 3 years.
- Conducted team-wise performance analysis to surface trends and feed findings into process optimisation, sustaining top-tier quality scores throughout tenure.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering | *Graduated: 2019*

Visvesvaraya Technological University (VTU), Belagavi, Karnataka

CERTIFICATIONS

- Deloitte Australia – Data Analytics Job Simulation (Forage) | Includes Tableau & data interpretation
- Tata – Gen AI Powered Data Analytics Job Simulation (Forage)
- Full Stack with Python – Besant Technology
